

Thurs. night

6-10-16

RAND - for Type I - citrus min det
(Porteria)

(+ the real estimate

Promptness - D-L/CT no fine)
work

no citrus higher
(conversion) (no citrus / no C3)

opt. mix: citrus
mile

no one said
that but one
here China

like "previous honey doctrine"

in WWII
USAAF

(vs. Soviet
vs. Harris)

Evangelical

(used by former for either
moral or ethical)

But as in WWII: MIL. alone is insufficient

(WWII - cit prob is let)

in WWII: cit bit and indirectly exp. paper
alone - on average - then, conversion is not

(cit define SU of AD from nuclear
must kill pop. (+ silos)

(hardly mentioned to target any ICBMs

change as effort for promptness

+ being large, about from

here, even longer force

(vs. quick
in det)

(one but about for ICBMs - still
+ critical)

6-10-12

Would Enforce sanctions?

Would SU do so?

Warning?

All involved to whether Barb would
be used or not — as city (Kyoto's industry?
mine?)

No time for warning, dec, before SU come in

1st — led on targeting to the level

"will leave

— to spare cities!

Striven from — no cities left.

What other missions planned

on Aug 6

or Aug 27

? Pakistan

7

to Aug 6

? If you raise the price

8

9

10 — 15

— Hypo: Before Trinity (Aug 17) they want SU to
come in. (but not before Barb: Aug 3...

After 17th (despite T to Barro on 17th) T + Byers don't
want SU to come in at all: left. before Bombs —
Aug 9 (when was Nag/Po made? Weather?)

delay —
don't tell
Stalin of
A-bomb

Martin could in level —

To offset Khrushchev's position

2) do they want SU in power?

b) will they have to compromise on
Poland, East Germany — for control of Germany,
East?

~~But~~ After 17th, West doesn't
(have to) compromise, can "demand" —

but this has no effect —

"Khrushchev" at Potsdam (9 folders)

* doesn't offer control of East Europe
as East Germany... Atlantic Def. force

(A-bomb does allow US to

own ^{West} Germany (hold off SU &
keep W. Berlin and not share
control of West...)

and Japan wants to surrender (only) to
US, when SU does come in

(with or without Berlin)

Better to be occupied wholly by US
than partly by SU

(Would they have surrendered without Explosion?

(Orbiting US gives US control Explosion?) ^{if true}

Question: know what

Haley — that them been panic
up

Lepata — creating

How much — cities

Entire the cities

Harris — one British parade

(Power in general — what?)

"if it seems different line" — vs. Vera Barton
was part spans and troops

Letting Barrel, beard, searched was line...

(no night lot 5000 but — but small)

My last: 300 but

front: more destructive power the opponent

(BUT: if it is dark
if fallout has blanketed SL
if cities are all dead)

(the most of targets)

1M 100,000 25,000

surface
Drone operations } get used TJ
